

# Oval Canopy Available For Encore<sup>®</sup> Dispensers

New canopy offers customers more image choices

The new Oval Canopy for Encore dispensers offers customers another choice for their dispenser image. The oval canopy provides a softer, more contemporary style.

## One Manufacturer, Three Choices

- Select from Oval, Rounded corners or Square corners – choose the best shape for your brand image.
- All metal construction.
- All three styles are available with new Encore dispensers or as retrofits.

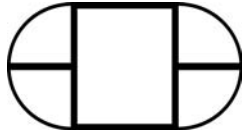

## One Manufacturer, One Consistent Image

- Custom paint and graphics are available.
- Because the canopy and graphics are made by the dispenser manufacturer – at the factory – you get the same high quality materials, exact matching colors, and quality application process used for dispensers.
- Only authorized major oil graphics will be applied, so you know you're getting the latest approved versions. Oval canopy graphics are approved for Exxon and Mobil images. Other approvals are in process, so check with your CSR on availability for specific oil company brands.

## One Manufacturer, One Shipment

- Simplify your order. Gilbarco Veeder-Root coordinates shipment with dispensers.
- List price for the Oval Canopy is \$285 with partial decals. Production charges may apply for complex, full-wrap decals. Contact Inside Sales for more information.
