

DEPARTMENT FOR BUSINESS, ENERGY AND INDUSTRIAL STRATEGY

APPROVAL TO CONDUCT VERIFICATION

APPROVAL CERTIFICATE

Approval Number 0011/01 Revision 12

Date of Issue 27th July 2016

Date of Expiry 27th July 2021

THE SECRETARY OF STATE FOR THE DEPARTMENT FOR BUSINESS, ENERGY AND INDUSTRIAL STRATEGY in exercise of the powers conferred on him by section 11A of the Weights and Measures Act 1985 (the 1985 Act) HEREBY GRANTS to:-

of GILBARCO VEEDER-ROOT LTD. (“the Approved Verifier”)
CROMPTON CLOSE
BASILDON
ESSEX
SS14 3BA

an APPROVAL in respect of the following categories of weighing and measuring equipment

Measuring Equipment for Liquid Fuel listed in annex A to this approval (“the equipment”)

to undertake the following activities:-

to test any such equipment which is manufactured, installed, adjusted or repaired by the Approved Verifier, to pass it as fit for use for trade and to stamp it with the prescribed stamp (“the verification activities”)

SUBJECT to the provisions of the 1985 Act and the conditions hereinafter appearing.

2. Further, for the purposes of this approval, equipment is repaired only if prior to work on the equipment, which includes any adjustment to the equipment, the equipment did not comply with such statutory requirements which relate to the lawful operation and functioning of the equipment for use for trade. Adjustment can be construed accordingly as work conducted on equipment which does comply with statutory requirements but may be capable of more accurate measurement.

3. The Secretary of State hereby allocates the numbers 2079, 2081, 2083, 2086, 2087, 2092, 2098, 2099, 2100, 2102 to 2106 inclusive, 2166 to 2178 inclusive, 2210 to 2224 inclusive, 2226 to 2229 inclusive, 2273 to 2279 inclusive, 2304 to 2313 inclusive and 2324 to 2343 inclusive as the identification numbers of the Approved Verifier to be used by the Approved Verifier whenever the prescribed stamp is applied to the equipment.

4 Unless previously withdrawn by the Secretary of State, or suspended by an inspector of weights and measures, this approval shall remain valid until the date of expiry.

5 The Approved Verifier shall at all times comply with the provisions of the 1985 Act and any regulations made under that Act which apply to the equipment ("the relevant regulations"). Further the Approved Verifier shall comply with any directions from time to time issued for or on behalf of the Secretary of State in relation to any of the matters mentioned or referred to in this approval.

6 The Approved Verifier shall undertake the verification activities in respect of the equipment at the place of its use.

7 The Approved Verifier shall notify the local authority, in whose area the equipment verified is situated, of any verification activities undertaken under this approval. Such notification shall be in writing and shall be made within 5 working days of completion of the verification activities in respect of that equipment. The notification shall include the following information:-

- (i) Identification of the approved verifier (including the number of the prescribed stamp used to stamp the equipment);
- (ii) Name of the person who conducted the verification activities;
- (iii) Address of the premises where the equipment was verified;
- (iv) Type of equipment, Serial Numbers, Certificate number(s) (including variant number, and any relevant supporting information);
- (v) Date of the verification activities;
- (vi) Reason for verification being conducted;
- (vii) Nozzle positions on the pump/dispenser verified (pump, tank & grade)
- (viii) Notation if the verification does not require test measures to be carried because the parts sealed do not affect the metrology of the pump/dispenser.
- (ix) Final errors on being passed as fit for use for trade when required;
- (x) Nature of repair and any components replaced;
- (xi) Identification of the seals replaced.
- (xii) Stamped as fit for trade – notation (Yes or No) for each nozzle position tested.

8 The Approved Verifier shall not pass and stamp the equipment as fit for use for trade unless the equipment has been tested in accordance with the requirements of the Measuring Equipment (Liquid Fuel and Lubricants) Regulations 1995 (S.I. 1995/1014), as amended or the Measuring Instruments (Liquid Fuel & Lubricants) Regulations 2006 as amended and been found to comply with the requirements and limits of error contained within those Regulations.

9 The Approved Verifier shall not pass and stamp the equipment as fit for use for trade or re-verify the equipment unless the equipment complies with the appropriate

certificate of approval granted or treated as being in force under and in accordance with section 12 of the Weights and Measures Act 1985, or the appropriate EC certificate of approval issued and in force under the Measuring Instruments Directive 2004/22/EC conformity assessment procedure B in respect of that equipment.

10 The Approved Verifier shall only apply the prescribed stamp to the equipment which has been first tested and passed as fit use for trade in accordance with the Weights and Measures (Prescribed Stamp) Regulations 1968¹ using equipment complying with NMO 7430².

11 The Approved Verifier shall at all times maintain the quality system detailed in the quality system documentation submitted to the Secretary of State on 15th May 2001 and shall at all times comply with the requirements set out in Part II of Schedule 3A to the 1985 Act. The Approved Verifier shall permit regular inspection and audit by the Secretary of State or a person authorised by him, which may include the Accredited Certification Body which conducted the certification of his quality system. The Approved Verifier shall so conduct his affairs and operations at all times to ensure that his continued accreditation of his quality system is not jeopardised and he shall comply with the conditions of accreditation imposed by the Accredited Certification Body. The Approved Verifier shall forward to the Secretary of State a copy of any report of audits undertaken by the Accredited Certification Body within 10 days of its receipt by the Approved Verifier.

12 The Approved Verifier shall:-

- (i) at all times retain records sufficient to enable the location of equipment which has been verified by the Approved Verifier to be identified; and

¹ SI 1968/1615 as amended by the Weights and Measures (Prescribed Stamp)(Amendment) Regulations 1999 (SI 1999/504)

² Specification for stamping equipment, August 2002.

- (ii) in any contractual relationship with a third party for the installation or the repair and verification of equipment for that party, include a requirement enabling the Secretary of State or a person authorised by him, which may include the Accredited Certification Body which conducted the certification of his quality system, to gain access to the equipment for the purposes of conducting the inspection and audit of the verification activities undertaken by the approved verifier.

- 13 The Approved Verifier shall notify the ACB of any changes to the quality system identified in paragraph 11 above, production processes or business which may have an effect upon the verification activities within 5 working days of any such changes PROVIDED always that if the change relates to the identity of those persons undertaking verification activities, the Approved Verifier must obtain the prior approval of the ACB in writing to the identity of the person to assume verification activities.

- 14 The scope of this approval covers initial verification of equipment with valid certificate of approval granted or treated as being in force under and in accordance with section 12 of the 1985 Act, re-verification of such equipment or re-verification of equipment with a valid EC approval under the Measuring Instruments Directive. This approval does not cover initial verification of equipment with a valid EC approval under the Measuring Instruments Directive. Annex A to this approval lists the Measuring Equipment for Liquid Fuel (“the equipment”) on which the Approved Verifier is permitted to carry out verification activities.

- 15 On request provide information to the Secretary of State of the date and location of proposed installation activities. This condition will enable the Secretary of State to make further evaluations of the approved verifier status as installer.

CERTIFICATE HISTORY

ISSUE NO.	DATE	DESCRIPTION
Annex A	31 May 2001	Annex first issued.
Revision 1	11 May 2006	Revision 1 Amendment 1 issued 18 th January 2005 included in the Annex.
Revision 2	7 July 2006	Revision 2 Inclusion of Certificate No's 1918, 2017, 2286 and 2437 in the equipment scope table.
Revision 3	28 March 2007	Revision 3 New Stamp numbers issued; 2210 to 2229 inclusive.
Revision 4	17 January 2009	Revision 4 Extension of scope to 'adjust' following the LRO.
Revision 5	07 September 2009	Revision 5 Scope extended to include MID certificate number T10103 and UK certificate 2780.
Revision 6	28 th April 2010	Revision 6 Scope extended to include MID certificate numbers. T10055 and T10001
Revision 7	11 th May 2011	Revision 7 Certificate Renewal and Stamp numbers updated.
Revision 8	16 th September 2011	Revision 8 Stamp numbers updated to include 2304 to 2313.
Revision 9	03 rd October 2013	Revision 9 Stamp numbers updated to include 2324 to 2343 inclusive.
Revision 10	18 th November 2014	Revision 10 Removal of stamp number 2280.
Revision 11	8 th June 2016	Certificate Renewal
Revision 12	27 th July 2016	Equipment scope extend to include certificate numbers 1958, 2176, 2223, 2536, 2619; and 0402-MID-10 70 21, 0402-MID-10 70 26 and TCM 141/07 - 4548.
