

Applause Europe

An integrated multimedia display to enhance your forecourt

Get the most out of your forecourt and c-store with Applause Europe as it enhances customer experience through a rich content screen and audio on the dispenser.

- ✓ 15" or 19" screen
- ✓ Operates in temperatures ranging from -20°C to +55°C (optional -40°C)
- ✓ Works as a factory fit or quick retrofit
- ✓ Boost your sales at the pump

Why Applause Europe?

Increase your profitability by displaying promotional information on a fully integrated multimedia dispenser screen. Applause Europe is easily updateable, letting you display full motion video and audio alongside fuel sales information.

- ✓ Integrated media screen with pump transaction display and rich content
- ✓ Simultaneous transaction, media and audio content
- ✓ Engaging full motion video on Linux platform
- ✓ Three content triggers: idle, fuelling and end of fuelling
- ✓ Easily update and customise content via USB, network connection (LAN/WAN) or dLAN
- ✓ Improve branding and customer guidance with individual grade colours, fonts and displays
