VEEDER-ROOT**

FlexPay OPT Plus

Outdoor Payment Terminal Retrofit

The new FlexPay OPT Plus is the most **cost-effective** solution available for **upgrading payment terminals** in the industry today. Never has it been easier to **modernise** and **future-proof** your business with a simple and **convenient onsite upgrade**. Boasting the **latest media-rich technology**, FlexPay OPT Plus is ready to **transform your customer journey**, with a faster, more **engaging payment experience**.

Drive greater customer experience and convenience

The FlexPay OPT Plus retrofit is modern, intuitive to use and is packed with features designed for greater customer convenience. It features a full colour HD 15" display, Gilbarco Veeder Root's pioneering payment sequence, and is compatible with various forms of electronic payments.

- Attractive and ergonomic design
- Innovative Bonding Display technology; anti-fogging and anti-reflection
- Smooth payment sequence with easy to understand iconography for guidance
- Compatible with the latest payment technologies including contactless, RFID and smartphone payment (NFC)
- Built-in microphone for remote assistance
- Multi-language capable

Enjoy total peace of mind

As a Gilbarco Veeder-Root customer, you can relax safe in the knowledge that your site is in good hands, 24/7. The FlexPay OPT Plus incorporates all the latest security features including PCI certification and anti-fraud solutions.

- Industry leading SPOT M7 payment platform
- Latest PCI certification
- Anti-skimming and anti-tamper devices
- Card and cash security options
- Perfect for unmanned and 24/7 operations

Unlock additional revenue streams and build loyalty

The FlexPay OPT Plus retrofit features an innovative dual-channel user interface display, ready to host a range of apps, video and image formats to deliver engaging and targeted promotional campaigns. It is also cloud enabled, meaning you can adapt and manage your content remotely, anytime and anywhere.

- Boost high margin product sales such as food, coffee and carwash services
- Increase revenue through selling advertising space
- Build and retain customers through promoting loyalty and reward schemes
- Drive more c-store footfall

Economical to install and own

The FlexPay OPT Plus retrofit is compatible with most safety boxes, saving you costs, and features some of the latest technologies available in the payment industry. A sound commercial investment to future-proofing your forecourts.

- A retrofit performance upgrade, designed for easy onsite installations
- Meet the latest regulatory standards and changing consumer behaviours
