

FLEXPAY OSP

Outdoor Service Point.

Ready to revolutionise the refuelling experience.

- Unlock additional revenue streams
- Delight your customers
- Enjoy total peace of mind

Fuelling the future, today.

FlexPay OSP

Outdoor Service Point.

The FlexPay OSP is the next generation of payment technology. Bring your business into the digital age with the most advanced payment solution on the market. Leveraging the latest cloud connectivity and automation technologies, get ready to drive **customer engagement, c-store footfall** and **additional revenue streams**. The FlexPay OSP is more than just a payment terminal. It's the Outdoor Service Point that's ready to revolutionise the refuelling experience.

Unlock additional revenue streams

Take advantage of all available revenue streams to maximise profitability. The FlexPay OSP features a multi-media ready user interface to deliver engaging and targeted promotion campaigns - in real-time. This means, you can adapt and manage your content remotely - anytime, anywhere.

- Drive more footfall into the c-store
- Increase revenue from adjacent products and services
- Boosts sales of high margin products such as coffee
- Up-sell car wash services

Enjoy total peace of mind

Relax safe in the knowledge that your site is in safe hands around the clock with the industry's premier brand for security. The FlexPay OSP features all the security features that have become our trademarks.

- Industry leading SPOT M7 payment platform
- Card and cash security options
- New reinforced safe to protect cash
- Perfect for unmanned and 24/7 operations

Delight your customers

The most modern, intuitive and feature-rich payment solution available in the market. The FlexPay OSP features a new full colour touch screen, available up to 21.5", combining a simplified payment sequence with engaging multimedia content. Helping you to attract, delight and retain your customers – with the ultimate connected refuelling and retail experience.

- Attractive and ergonomic design
