# WETSTOCK MANAGEMENT

OUR COMPREHENSIVE RANGE OF COMPLIANT AND RELIABLE WETSTOCK MANAGEMENT SOLUTIONS OFFER YOU ADVANCED ENGINEERING AND A RESPONSIVE SERVICE.

Scalable and customisable, our tools provide control, security and data across networks of all sizes anywhere in the world.

## AUTOMATIC TANK GAUGING

After setting the world standard with the TLS-3xx family, we made TLS-4xx an even more indispensable tool for fuel retailers across the world.

### Key benefits of the TLS-4xx family

Superior financial benefit	Highest level of accuracy on the market thanks to AccuChart™
Better fraud/leak protection	Leak detection capabilities during a preset period, inventory information kept during power outages
New functionalities at no extra hardware cost	Connect to our Insite360 service (internet connection not included)
Superior usability	Faster operation, easy-to-use touchscreen and 3-year memory storage
Always up to date	Automatic performance upgrades via internet (requires internet connection)

## INSITE360 — CLOUD-BASED WETSTOCK MANAGEMENT SERVICE

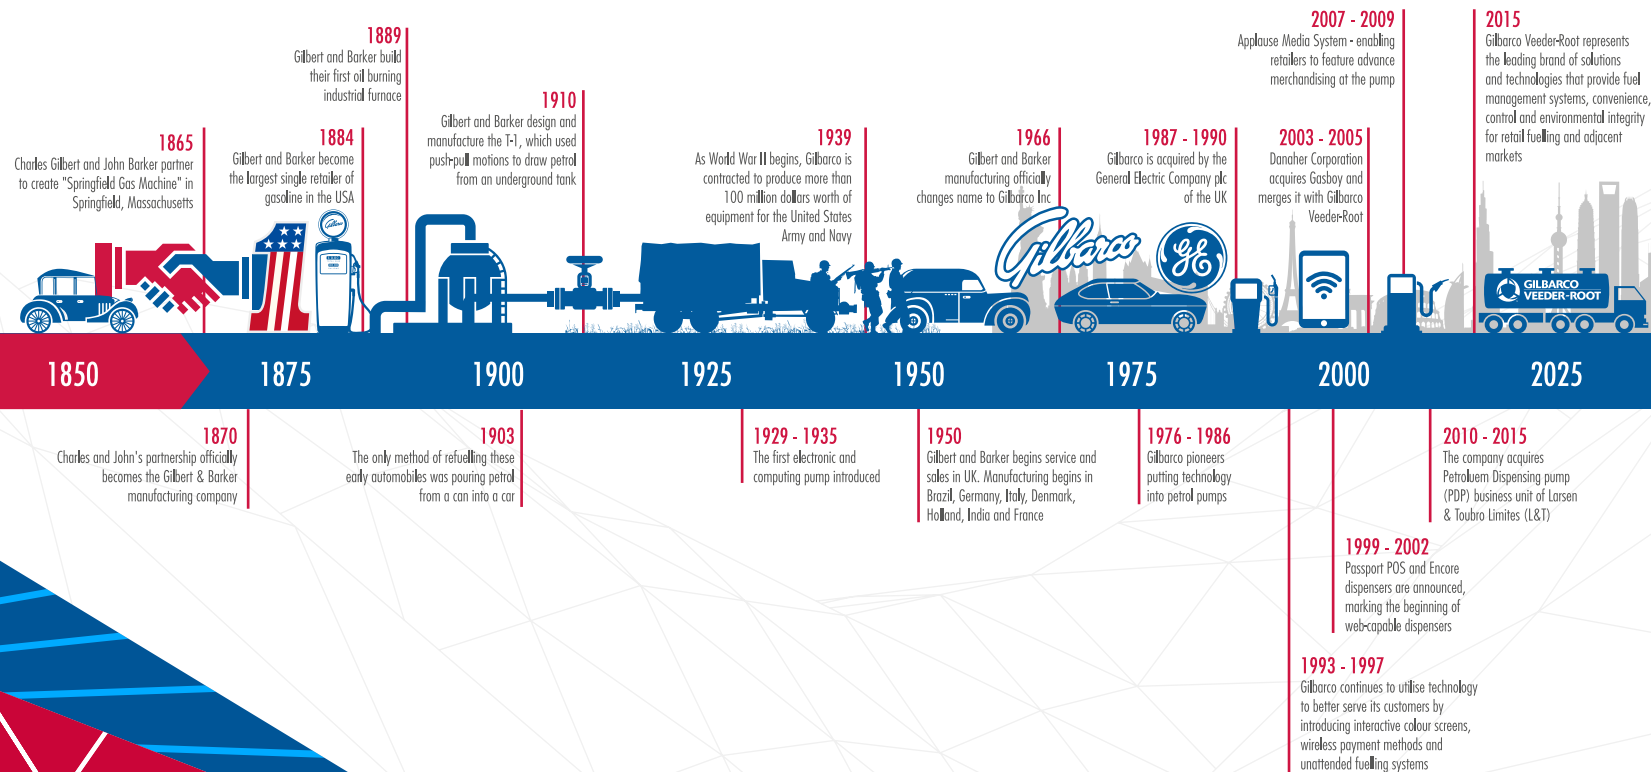

Building on our long experience in wetstock management and the latest technology in cloud computing, Insite360 offers numerous opportunities to maximise the financial return extracted from your fuel sales.

### Why should you adopt Insite360

Inventory and logistics	Inventory cost reduction, enables Vendor Managed Inventory and prevents haul-backs due to more accurate data
Wetstock management	Grasp your wetstock variances, provides guidance to reduce possible losses
Finance	Reduce your fuel write-offs thanks to a better control of you variances
Alarm management	Slash maintenance costs by reducing site intervention
Leak and theft detection	Be the first to know leaks and theft occurring at your sites
SIR	Statistic Inventory Reconciliation, the most advanced method for leak detection
Endless possibilities	More value-enhancing functionalities will be added throughout 2016 — be the first to benefit from this competitive advantage
