

Forecourt and c-store automation

In today's rapidly evolving market, consumers expect convenience, online service and a quick check-out.

Whether you are a global oil company, franchisee, or dealer, having a powerful, dynamic platform is crucial to maintaining a competitive edge and retaining customer loyalty.

Passport X

Flexible platform to evolve your business

Meet future challenges today with a versatile, cloud-based platform that allows easy, quick localisation with global and remote management. Leverage your data from a new level of personalised customer experience and loyalty.

The Passport X platform allows you to quickly innovate your fuel stations and c-store networks to maximise revenue and meet evolving customer demands in today's digital age.

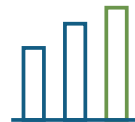

Support omnichannel purchases

Improved customer experience

Contactless retail payments

Fast, frictionless transactions

Customer behaviour data analysis

Personalised marketing for more revenue

Cloud-based, multi-tenant solution

Efficient business management

Always available, online and offline

Stay open and in control

Network and data security support

High-level cybersecurity protection

Bridge the digital gap

Passport X allows you to transform your retail station to deliver a swift frictionless purchase journey for digitally savvy consumers. Create a unified customer journey across multiple channels and touchpoints, enabling frictionless, cashless transactions and e-commerce.

Exceed customer expectations and boost your revenue

- Use digital channels to boost sales
- Automate processes and workflows
- Accept all payment types
- Personalise your marketing
- Draw insights from data analytics dashboards
- Offer added-value customer service
- Keep your customer data safe from cyber threats

Broaden your fuel business with retail

Today, business growth requires expansion into the retail arena. Expand your services and offerings beyond fuel to improve productivity, boost revenues and increase profitability. Add value with in-store, curb-side, and last-mile delivery services.

An all-in-one fuel station and network management solution

Improve business efficiency with remote pump authorisation, automated processes, such as self-checkout and inventory management, powerful, integrated back office and head office systems. Enjoy full capabilities in any communication conditions even while offline, and more, all these components in a single platform.

Point of Sale (POS)

Easy-to-use online/offline POS that manages all types of sales and works on any modern hardware, e.g. self-service kiosk, mobile devices, and more.

Passport Xpress

Hardware agnostic Mobile Point of Sale (mPOS) for fuel attendants, providing flexibility in operating the station's forecourt.

Passport X Engine

Centralised site business logic management that enables stability, modularity, and customizability.

Head Office / Back Office (HOS/ BOS)

Multi-tenant cloud for central management of any type of retail fuel network, specific stations or stores.

Report Generator

An advanced visual reporting tool that enables the user to easily create fully customizable dashboards for comprehensive business insight.

Analytics Module

A flexible self-service tool that monitors the site data and creates impactful dashboards to highlight business insights, identify trends, and discover opportunities.

What our customers say

"Gilbarco has helped us to modernise and build state-of-the-art stations with advanced services, strong customer loyalty and brand image. Over the last decade, we've implemented their solutions in our forecourts, c-stores and head office. We appreciate their innovation and their adaptability to fit our business models."

VP Retail & Business Development, European Oil Company

"With Gilbarco, we get the best service, plus we get the value, and we get a solid performer that's going to last with us."

Leading C-store Chain Owner, USA

"Gilbarco is the ideal partner for us as they are able to provide a full end-to end solution, with the attention to detail and the customisation we required to make the project a success. With Gilbarco's "forecourt-to-cloud" proposition, we are strengthening our position in key markets."

Business Planning Manager, South American Oil Company

Total insight into your business
