✔ Touch-Screen

Forecourt and C-store automation

GILBARCO VEEDER-ROOT

The Passport Alpha C-Store Point of Sale System is a highly flexible point-of-sale software solution, allowing the station operator to fully control the site, sell items, accept any payment means, redeem loyalty cards, and more, supporting an entire array of C-store activities including restaurant and fast food service, bill payment and loyalty card issuing.

- ✔ Fuel sales from the store
- ✔ C-store dry product sales
- ✔ Shift & employee management
- ✔ Loyalty issuing, acceptance, and redemption
- ✔ Customizable payment and cash management
- ✔ A gastronomy module with combo management and kitchen printer

Simplicity and control, increasing your C-Store traffic

The Passport Alpha POS has an easy-to-use user interface for both wet and dry stock sales, and is highly intuitive requiring minimal cashier training. The system is hardware-independent, and can run on any standard industry touch-screen cash register and interfaces with industry-standard peripherals including barcode readers, scales, cash drawers, and customer displays.

Advanced touch-screen functionality

The Passport Alpha POS is a user-friendly and advanced touch screen point of sale system, and is fully configurable to suit diverse customers' needs.

Benefits

Maximize your C-Store profit

Flexible

Highly flexible system for managing the station and C-store. Supports a full array of C-store activities, such as restaurant & fast food service, bill pay and loyalty card issuance.

User-Friendly

Optimal user interface for both wet and dry stock sales, is highly intuitive and requires minimal cashier training time. Supports touch screens, multi-level hot keys and interfaces with payments terminals and gateways.

Full Control

Allows the station operator to fully control the site, sell items, accept any payment means, redeem loyalty cards and more. Fully scalable and configurable, multiple POS systems can be installed in the same service station.
