

Atlas PRIME

Integrated Fuel Control & Dispensing

Gasboy Atlas PRIME merges the latest fueling control technology with trusted Gasboy Atlas fuel dispensers. Each fueling position has its own integrated user interface for authorizing transactions and collecting driver and vehicle information.

The Atlas PRIME point-of-use fuel authorization terminal provides a faster, safer, and more intuitive fueling experience at commercial fleet fueling sites. Separate fuel control pedestals are not needed at Atlas PRIME locations, simplifying installation and increasing site uptime.

Advanced user interface with color display and full alphanumeric keypad

Flexible fueling authorization options:

- MIFARE tags
- Magnetic cards
- HID

Dispenser integrated fuel control means faster fueling transactions

Web-based interface. Seamless integrations with EKOS or Fleet Head Office enterprise software

Simplified installation and increased uptime

Automatic odometer and vehicle data collection with Gasboy FuelPoint PLUS wireless vehicle identification system

Atlas PRIME

Availability

Available as a factory installed option for the following Atlas front load models:

Series	Description
9800	Atlas Electronic High Flow Pumps and Dispensers
9840	Atlas Electronic Super High Flow 40 GPM Pumps and Dispensers
9850	Atlas Electronic Ultra High Flow 50 GPM Pumps and Dispensers
9860	Atlas DEF Warm and Cold Weather Dispensers
9870	Atlas E85
