

Card Reader in Dispenser FlexPay™ NC3L

- ✓ Dedicated point-of-sale
- ✓ Distinctive design
- ✓ Maximum flexibility
- ✓ Unbeatable user experience

Payment solutions

**GILBARCO
VEEDER-ROOT**

Technologically advanced, the FlexPay™ NC3L Card reader in dispenser (CRIND) offers customers a quick and convenient way to refuel and pay at the same time.

Fully integrated into the fuel dispenser, the FlexPay™ NC3L boasts high quality media features for a supreme end-user experience.

Why CRIND?

FlexPay™ NC3L is the perfect solution for all forecourt environments. Whether to facilitate fast lane aisles, or unmanned 'ghost' stations, with the FlexPay™ NC3L you can drive more sales and profit.

- Card payment only for ease and speed of use
- Media advertising close to the fueling position to drive upselling and promotions and traffic into the shop

Maximum Flexibility

The FlexPay™ NC3L highly scalable and configurable, thanks to a wide range of options available as factory fit or retrofit.

- 2 different display sizes available
- Choice of hybrid manual or motorized card reader
- 2D barcode reader
- Contactless reader
- Different printer options
- Audio enabled

Unique Payment Platform

The FlexPay NC3L features Gilbarco Veeder-Root's proprietary payment platform (SPOT M7) for:

- Best investment in the market
- Highest security
- Integrated multimedia capability

Unbeatable User-Experience

To stand out from the competition and drive customer loyalty, it's important to deliver a great customer experience at every touchpoint. With the FlexPay™ NC3L your forecourt delivers visible advantages over the competition.

- Enhanced WIDE display for improved visibility and touch experience
- Multimedia ready for a more engaging user experience even during refuelling
- Different card payment options for increased customer choice and user experience

SPOT M7 secure payment platform

The SPOT M7 offers unbeatable compliance with the highest security PCI level against fraud. SPOT M7 is a technologically advanced terminal that meets the latest international bank security standards.

Seamless system integration

The SPOT M7 payment platform offers easy integration with Passport Europe POS and other Gilbarco Veeder-Root solutions.

Powerful PC board

An option on the terminal communicates with POS/BOS/FCC to deliver a seamless customer experience:

- ✓ Control the OPT mode
- ✓ Send sales data to the BOS database

Multiple payment options

The SPOT M7 boasts a choice of different payment devices with both a 2D barcode reader and contactless reader, the FlexPay™ NC3L can accept any debit, credit and loyalty card, contactless cards, vouchers and coupons.

Retrofit your dispenser

The FlexPay™ NC3L can be integrated with our SK700-II dispensers as either factory fit or retrofit. They can also be retrofitted on site to other brands of dispensers.

Seamless integration coupled with industry leading features, with Gilbarco Veeder-Root's offering in modern forecourt solutions you can be confident of delivering the ultimate user experience.
